July 2014

To the Selectmen of The Town of Carroll, N.H.

There is a rumor that selectmen are considering the closing of the recycling center. The community voted our tax dollars into this self sustaining resource center.

The people in this community seem determined to keep and use our resources in an environmentally wholesome manner.

My husband and I had worked for the State of N.H. a total of 48⁺ years; we learned that short sighted decisions are never the best decisions.

Please put this decision before the citizens / voters of our community.

Sincerely,

2 very concerned citizens,

Lydia & Richard Siergina
