As long as we attach this to the minutes it's a legal document. Its when we don't post it we get in trouble. We will need to address this as the Dec 21 meeting that we voted to purchase now vs wait so that we didn't lose out on the deal.

But, for what it's worth, you bet—aye.

That is how I would like to proceed. I make a motion to purchase the Cub Cadet Model SC2400 with the 60" mower as quoted for \$10,000.

Well we can make this an official vote and post the e-mails with the minutes, if that is what you want to do.

I called the dealer about the mower and I say let's buy it. I was confused about the model listed as a YC because they don't make a YC is SC. After clearing that up I am convinced this is the tractor for the town. Let's move on it.

Hope all goes well with your doctor! No problem, just wanted to let you know that Billy came through and found a good machine, so you'd have time to look it over. Bonnie

I can't thank you two enough for allowing me the night off. I had to call my doctor to get something better than advil. I will look into the mower today. We will make a mower purchase before year end. Thanks again.

Thanks for the kind words Bonnie.

Chris I sure hope you are able to get relief with the root canal, tooth pain is some of the worst!

Once you get some relief, the mower looked to be a good buy and overall very effective for what the town needs. Hopefully we can make the decision next week.

My January schedule just sucks...just a head's up. Most of my trips (that touch Mondays) all depart at 0000 (midnight) so the timing/scheduling aspects put me in a bind. I may be able to Skype but I will need to figure out a way to set up a synchronous capability to maintain the Skype connection AND simultaneously allow Maryclare to send any last minute documents. The better approach is to send me the documents that are going to be reviewed at the meeting. Hopefully we can coordinate that, but of course as long as there is a quorum...

I am in the middle of homework and will be around all day today...

Chris, Ken did a good job!!!! Billy found a diesel tractor and they guy has one in yard that's a display that he will sell us for \$10,000. vs \$13,000. If you feel better Chris, could you please look at is and see what you think. We should try to make a decision next week so it can be purchased before the end of the year. If that's ok with the two of you. Thanks and hope your doing better Chris.

I need to excuse myself from the meeting. I have been taking tylenol and advil without any improvement. I am sorry but I would not be able to concentrate with the discomfort.
