Subject: Abutter Notification – Map 410, Lot 28

As for the request for a variance for side set backs on a non-conforming lot, I have no objection. However, when considering this lot in about 2003 for a right of way to my property to the south of subject lot, the lot has much wetland including Carter Brook (which crosses the lot). Thus, I determined the lot was not suitable for a right of way.

Very Truly Yours.

G. Ernest Temple
