

Town of Carroll Building Committee Report to the Select Board
April 20, 2020

The Town of Carroll new Building Committee (the "Committee") is pleased to provide this report to keep the Select Board and the public informed of our progress toward providing new accommodations for our public safety, administrative and community services.

Since our last written report of March 23rd, the Committee has not met. Future Committee and Dedication Ceremony subcommittee meetings are suspended until state and local government stay-at-home and social distancing orders are modified or terminated, enabling in-person meetings to take place once again.

Work continues in Town Hall, with the next focus on the town library. The library shelving vendor has reported that the new shelving bases will ship April 24. Upon arrival, they will be installed, the shelving units bolted together and aligned in their new configuration, and the library collection partially unpacked per the shelving diagrams provided by librarian Tom McCorkle.

Respectfully submitted,

Imre Szauter
Chair, Building Committee 2018-2019
